

Sir/Madame: As an American citizen and XM subscriber, I urge you to reject petition 04-160. I do not believe it fair or thoughtful to limit the service I pay for and enjoy. I have benefitted from XM's service many times on cross country trips, not only from the entertainment standpoint but from the informational as well. As an anecdote, on a recent trip, weather information from XM allowed me to circumvent a particularly destructive storm allowing me to save time and not lose any productivity. So, I strongly urge you to reject petition 04-160. I, and many others in this country, would not benefit from its passage.

Sincerely,

Anthony Leone
